850-625-9725 | kim_greenbush@icloud.com | [LinkedIn](#) | [GitHub](#)

TECHNICAL SKILLS

Languages:

Python, C#, JavaScript, HTML, CSS

Frameworks:

Django, ASP.NET, ReactJS, Bootstrap, Express

Databases:

MongoDB, MySQL, SQLite

Other Technologies:

JQuery, MVC, Ajax, Node.js, Mongoose, Application Programming Interface (API), Bcrypt, Amazon Web Services (AWS), Git, GitHub

Software:

VSCode, Powershell 7, Postman, MySQL Workbench, Unity, UnityHub, GitHub Desktop

TECHNICAL PROJECTS

Garage Sally | *Back-end Engineer* | Seattle, WA

2020

A mobile-friendly garage sale application that allows users to locate local sales | [GitHub](#)

- Technologies used: **Node.js, Express, Mongoose, MongoDB, JavaScript, Git, GitHub**
- Utilized Node.js and Express to construct an API back-end server
- Leveraged Mongoose to streamline queries to the database and perform CRUD operations
- Integrated MongoDB to store user and garage sale information
- Implemented a JavaScript converter to store uploaded images
- Collaborated using VSCode, Git, and GitHub to manage workflow

Lethal Combat | *Co-Creator, Co-Developer* | Seattle, WA

2020

A Unity 2D turn-based Role Playing Game: [Lethal Combat](#) | [GitHub](#)

- Technologies used: **C#, Unity, Git, GitHub, WebGL**
- Utilized Unity and C# to design and animate an rpg-style game
- Implemented Object Oriented Programming for structure
- Designed game set and characters using a Unity Asset pack
- Collaborated using Unity, VSCode, Git, and GitHub to distribute and share workloads
- Converted into WebGL to deploy on Simmer.io

Welcome to the Arcade | *Creator, Lead Developer* | Seattle, WA

2020

A web application of retro arcade-style games | [GitHub](#)

- Technologies used: **Python, Django, JavaScript, Bcrypt, SQLite, Bootstrap, CSS, HTML**
- Utilized Python, JavaScript, and Django's multiple app architecture to create an arcade-style website featuring retro arcade and 8-bit games
- Implemented registration and login validation with Bcrypt and SQLite to validate users and create a network
- Layout constructed with Bootstrap, CSS, and HTML

PROFESSIONAL EXPERIENCE

Shift Supervisor | Starbucks | Seattle, WA

2016-Current

Legal Secretary | State of Florida | Panama City, FL

2017-2018

Guest Service Assistant | Target | Panama City, FL

2014-2017

Volunteer Japanese Translator | DP Scanlations | Remote

Winter 2014

Warehouse Associate | Shimohana, Inc. | Tosu, Japan

2012-2013

EDUCATION

Coding Dojo | *Full-Stack Developer Certificate* | Seattle, WA

2020

- *Immersive Full-Stack Training Program in Python, C#, and MERN*
- *Awarded Triple Black belt for attaining highest marks in all three stacks*

2014

Florida State University | *B.A. in Japanese Language and Culture, International Affairs* | Tallahassee, FL

- Study Abroad, Fukuoka, Japan
- Study Abroad, London, England
